Highlights

New! CAPA - Brecksville Broadview Hts. School District License Plate Program.

The Community Awareness & Prevention Association of Brecksville is initiating a House Bill specifically for the Brecksville Broadview Heights State of Ohio License Plate Program. This license plate program would enable students the opportunity to actually design the license plate (with a bee!) and would provide additional monies to the Brecksville Broadview Heights School District which shall only be used in providing services to the school district's students that assist in developing or maintaining the mental and emotional well-being of the students. In order for this to happen, CAPA needs to collect signatures on a petition of supporters of this Bill. A petition for this House Bill 319 will be placed in the school office next to the sign-out sheet for all those interested in supporting this initiative. This petition does not obligate purchase of the plates. It only supports passage of this Bill to allow our school district to take part in this program. Please take a moment to sign this petition. We appreciate your support!
